

A close-up photograph of a person's arm resting on a white surface. A grey blood pressure cuff is wrapped around the upper arm. A white digital blood pressure monitor with a blue display screen is connected to the cuff. The monitor's screen shows a reading of 120/80. The person's hand is partially visible, resting near the monitor.

- Always take your blood pressure at the same time every day.
- Take at least two readings, 1 or 2 minutes apart.
- Visit [**cdc.gov/bloodpressure**](https://www.cdc.gov/bloodpressure) to learn how to correctly measure your blood pressure.
